

Instruction Sheet For Roll Out Hamper With Plastic Bin

Parts Included:

- A. Pre-assembled mounting board
With wire cage.
- B. Slide bracket assembly.
- C. Plastic hamper
- D. Mounting screws (4)
- E. Spacer (4)

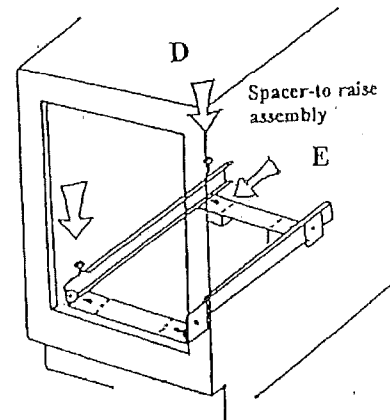

Tools Required:

- A. Phillips head
screwdriver
- B. Drill with 1/16" bit
for pilot holes.
- C. Pencil

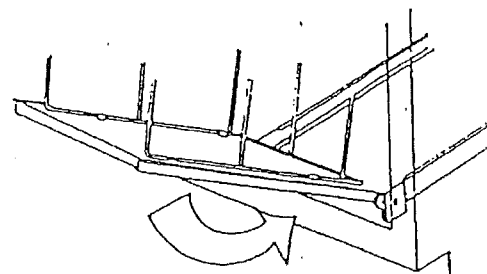

STEP 1

Place slide bracket assembly(B) on Cabinet floor 1/4" to 3/4" behind face frame. Close door to make sure unit will not hold cabinet door open. Once position is determined, fasten in place using mounting screws provided (D). Use Spacer blocks (E) under the slide bracket Assembly for face frame clearance. Optional: mark placement of holes with a pencil, remove unit and drill pilot holes for fastening screws.

STEP 2

Slide mounting board with wire cage (A) into slide bracket assembly (B) by inserting wheels on mounting board (A) into tracks on Slide assembly (B). The mounting board and wire cage assembly should move freely along the track. Insert Hamper (C) to Complete installation
